

SNEHAL POL

Technical Product Owner | Platform & API Products | AI Systems | SaaS

Pune, India | +91-9665146492 | spol.2722@gmail.com

LinkedIn : [linkedin.com/in/snehalpol22](https://www.linkedin.com/in/snehalpol22)

SUMMARY

Technical Product Owner with 9+ **years of experience** building and scaling **platform products, API-driven systems, and AI-powered SaaS solutions.**

Strong expertise in **core platform capabilities, API design, reusable services and SDK integrations, and data-driven product development.** Proven ability to define **functional & non-functional requirements, manage Agile delivery across multiple squads, and deliver scalable, high-impact platform solutions.**

KEY SKILLS

Platform Product & Strategy

Platform Capabilities, Product Roadmapping, KPI Definition, Stakeholder Management, Data-Driven Product Development

API, SDK & System Architecture

REST APIs, API Contracts, JSON Schemas, SDK Integrations, Data Flow Design, System Integration, Platform Architecture

Agile Execution & Delivery

Sprint Readiness, Backlog Management, User Stories, Acceptance Criteria, Agile / Scrum / Kanban

Generative AI & Automation

OpenAI, Gemini, Prompt Engineering, Embeddings, AI Workflows, Document Intelligence, Content Enrichment, n8n

UI/UX & Frontend (Supporting Strength)

UI/UX Optimization, WordPress, HTML, CSS, JavaScript, React

Data, Tools & Technologies

SQL, Jira, Confluence, GA4, AWS, Git, CI/CD Concepts, Productboard, Monday.com

Release & Quality Management

Release Planning, Risk Management, Observability (Logging, Monitoring), Performance Optimization

PROFESSIONAL EXPERIENCE

Technical Product Owner – Platform & AI Systems,
Foundry (SSG) | Remote

Mar 2022 – Feb 2026

- Defined and delivered **core platform services and reusable capabilities** for content and campaign systems across multiple teams
- Translated business needs into **scalable platform features including APIs, data services, and reusable service components**. Defined and enhanced data services and platform workflows supporting campaign and content systems
- Defined **API contracts, JSON schemas, and integration patterns** ensuring consistency across services
- Contributed to **SDK design and reusable service components**, enabling faster integration and improved developer experience
- Supported **schema versioning and backward compatibility** for evolving APIs
- Designed **data flows and system integrations across CMS, campaign platforms, and analytics systems**
- Owned **sprint readiness, backlog grooming, and dependency management** across multiple squads
- Wrote **clear functional & non-functional requirements with testable acceptance criteria**
- Partnered with engineering on **API design, integration details, and system behavior**
- Defined **non-functional requirements** including scalability, performance, and reliability
- Collaborated on observability (**logging, monitoring, performance metrics**) to ensure platform reliability and scalability
- Built **AI-driven document enrichment pipeline (PDF → metadata → taxonomy)** reducing manual effort by 60%+ and implemented **LLM-powered workflows**

Product & UI/UX Lead – Digital Platforms
Selling Simplified India Pvt. Ltd. | Pune

Dec 2016 – Mar 2022

- Delivered multiple **digital platforms and campaign systems** for global clients
- Defined **product requirements, workflows, and data-driven campaign strategies**
- Collaborated with engineering on **API integrations, backend workflows, and system data flow design**
- Designed **user journeys and platform flows** supporting campaign execution and lead capture
- Managed cross-functional teams and ensured **Agile delivery with structured backlog and sprint planning**
- Wrote **user stories, acceptance criteria, and functional specifications**
- Built **WordPress-based platforms (custom themes & plugins)** with scalable frontend architecture
- Improved **conversion rates and user engagement** through UX optimization
- Led and **mentored UI/UX** teams to deliver high-conversion web and email platforms, improving design quality, delivery speed, and operational efficiency.
- Built scalable **design systems, reusable components, and responsive HTML/CSS email templates** to ensure consistency across web and mobile platforms.
- Collaborated with **product, engineering, and backend teams** to ensure seamless design-to-development handoffs and high-quality releases.

Associate Software Developer
Vidushi Infotech Pvt. Ltd. | Pune

Sep 2012 – Mar 2013

- Developed web applications using **WordPress, HTML, CSS, JavaScript, PHP, MySQL**
- Supported **frontend and backend integration** workflows

KEY PROJECTS

AI-Powered PDF Enrichment Platform

- Built AI pipeline for PDF → metadata → summaries & content generation
- Automated extraction, teaser, and description generation for campaign assets
- Improved content processing efficiency and reduced manual effort

Unified Content Syndication Platform

- Led development of unified platform for web, email, and ad campaigns
- Defined product roadmap and API-driven workflows for scalable campaign execution
- Aligned platform capabilities with business and marketing needs

Demand Hub – Content Syndication Platform (0 → 1)

- Built multi-tenant SaaS platform for campaign and lead management
- Designed user journeys, forms, and gated content workflows
- Improved lead conversion and engagement through UX optimization

ECM – Email Campaign Manager

- Developed email automation platform with asset hosting and user tracking
- Built analytics dashboards for campaign performance and user journey insights

EDUCATION QUALIFICATION

PGDM – Project Management	Dec 2024 - Dec 2025
MIT School of Management	
• Specialization in Advanced Project Management - Marketing	
B.E. – Computer Science & Engineering	Aug 2007 - Aug 2012
AMIETE	

CERTIFICATIONS

- Agile Product Owner – LinkedIn (2025)
- Aha! Product Management Professional Certificate (2024)
- Generative AI for Project Management – PMI / LinkedIn
- Business Analysis & Process Management – Coursera

WORK AUTHORIZATION

- Open to US / EU / Global Remote Roles
- Experienced in Remote & Asynchronous Teams
